

Visit 2025

The award-winning Reaching Rwanda project is planning to organise a visit to Rwanda for any interested people in July/ August 2025.

Participants will have the life-changing experience of working with genocide survivors and orphaned children through the amazing NGO Survivors Fund.

During the trip you will have the chance to work with organisations supporting homeless children. You will bring enormous joy as you hand over clothes, toys and toiletries.

You will work with others to teach fun activities at our education centre, Philly's Place.

You will decorate and furnish new homes for genocide survivor families, witnessing the elation as children bounce on their first ever beds.

You will make a real difference by donating cows and goats to vulnerable people.

You will be fully immersed in the vibrant Rwandan culture, both modern and traditional.

You will leave Rwanda knowing that you have left a lasting legacy and benefit to those you have met.
